

20th November 2016.

my

Dear Podiatry Surgery,

Thank you very much for your letter for giving me the opportunity to comment on the outcome of the surgery I had on my foot on 9th May 2015 under the care of Mr Jonathan Harlow. Firstly, I am very pleased to report that the pain in my foot following the removal of a dress making pain has virtually resolved, for which I am extremely grateful. I have 'lived' with this pain for many years, & obviously with some reluctance requested Mr Harlow's opinion on whether to proceed with surgery.

I am in the Healthcare Profession, & you have my
great respect for all aspects of the podiatry service
both as an out-patient & in-patient, that I
received from the administrative staff,
nursing staff, & the surgeon, Dr. Harbott.

Could you please refer my letter to Dr. Harbott
in this new place of work.

Thank you.

Yours Sincerely,

Lorise Cousins
